

we keep you safe.

Flash Intervention is an ivorian company specialised in private security. Since its creation in 1999, it has gradually become the leader in its field in Ivory Coast. With 2,000 highly competent and responsive employees the company adapts to the need for increasingly high standards, by proposing solutions at the forefront of innovation. Today, Flash Intervention possesses all the logistical, technical and human means necessary to meet its ultimate aim: guaranteeing your security.

2,000 employees

- ▲ Professional, experienced, available teams.
- ▲ Security guards trained in our certified training centre in Vridi.

Vehicles for all terrains and all situations

- ▲ A fleet comprising double-cab 4x4 vehicles.
- ▲ Constantly updated fleet.
- ▲ Covering 23 regions in Abidjan, Bassam, Bouaké, Daloa and San-Pédro.

Branches in Abidjan and inland

- ▲ 3 branches in Abidjan (Zone 4, 2 Plateaux, Vridi), entirely independent and operational, even during unforeseen events (riots, etc.)
- ▲ 3 inland branches (Bouaké, Daloa, San-Pédro), overseen by a Regional Manager. They offer the same high-quality services as our branches in Abidjan.
- ▲ A certified training centre at our Vridi site.

An exemplary Control Room

- ▲ Secure and operational 24/7, 365 days a year.
- ▲ Monitors our 3 branches in Abidjan and our 3 inland branches.
- ▲ Recognised as one of the most efficient CRs in West Africa.
- ▲ Installation of a similar system for large international corporations in Niamey (Niger) and in N'Djamena (Chad).

Assistance / Intervention

The leading security responder in Ivory Coast, we ensure the security of businesses and homes 24 hours a day, 7 days a week.

In the event of a threat, incident or accident, simply pressing the remote control or the «Panic» button will immediately trigger our response procedure. Our fleet of vehicles and our Control Room guarantee a quick and efficient response.

Alarm

A high-performance alarm system reduces the risk of intrusion and burglary by over 90%. In addition to our Assistance services and our Security Guards, we offer our clients a range of reliable and durable products at the forefront of innovation.

Security guards

Our operational staff are trained at our certified centre in Vridi. As well as being an effective deterrent, our security guards ensure an accurate and immediate response to all threats. They can be armed and have radio communication equipment which allows them to stay in permanent contact with our Control Room.

Video surveillance

An indispensable part of anti-intrusion measures, our video surveillance system allows «visual verification» in the case of alarms, the identification of individuals, real-time (or pre-recorded) surveillance of homes and businesses, as well as the prevention of burglaries, thefts and damage.

Tracking

«FlashTrack», our vehicle tracking and monitoring device uses satellites and benefits from Flash Intervention's operational support. Via our internet platform, **FlashTrack Online**, it provides real-time information for managing the vehicle fleet and recovering stolen vehicles.

Audit / Safety plan

As recognised experts in the security domain in Ivory Coast, we implement customised Safety Plans and carry out Audits to protect sites against the risk of intrusion and malicious acts.
